

EARTH WEEK 2020: GRACE GOES GREEN BINGO

Post your experiences on social media using hashtag [#gracegoesgreen](#) and send photos to gpograce@gmail.com so we can share them with our Grace community. Try to complete all items, and, if you complete at least 10, submit a photo of your checked off GREEN Bingo card to gpograce@gmail.com for your family to be entered to win a green prize!

GO OUTSIDE	RECYCLE	EARTH	EXPLORE	NO WASTE
Complete this Nature Bingo Card from the Museum of Science and Industry's Science at Home site.	Drop off broken/unusable crayons and dried out markers at Grace Lutheran's front door.	Find a nature documentary to stream and watch as a family.	Find activities on the National Geographic @ Home website such as this Backyard Bioblitz project.	Have a meal with nothing other than food waste. Even better, create a super easy way to compost and call it zero waste!
Start a vegetable garden . Buy local at Dressel's Hardware or Good Earth Greenhouse .	Use materials at home to make this bird feeder craft (no birdseed necessary!)	Participate in the World Wildlife Fund's daily-themed Art for Earth Campaign and submit artwork with hashtag #artforearth	Listen to one or more of these earth-focused children's podcasts	Ditch paper towels for good and switch to cleaning cloths in your kitchen.
Find a nearby park to clean up. Go as a family with grocery bags in which to collect trash.	Check out these upcycling and art projects from River Forest's Little Bits Workshop	 Browse the earthday.org website	Dive into the Field Museum's online site and enjoy an activity such as this video (3rd+) or this book (pK-5th).	Spend a day without using your car (which is quite easy these days!). Go for a walk or bike.
Offer to help elderly neighbors or those in need with their yard work while keeping social distance norms.	Review your family's approach to recycling and follow these guidelines to ensure you are doing it right!	Space out with these STEM activities provided by NASA for grades K-4 and grades 5-8 .	Explore nature photography in your own backyard and submit your masterpieces to gpograce@gmail.com	Have a 100% plant-based meal at least once this week.
Create an outdoor obstacle course for your whole family to enjoy!	Make a cool suncatcher out of plastic bottles or glue and food coloring	Collect spare change and make a donation to an earth-friendly nonprofit organization . Encourage your friends and family to do the same!	Follow the self-guided family exploration of Nests & Eggs and Forest Animals provided by the Morton Arboretum .	Try to add at least five new ways to reduce waste in your home. Check out these tips and this family's video for ideas.
